An Easy Reader that inspires imagination, increases vocabulary by learning new words and promotes focus by asking questions about the story.

It's an easy reader for any age! It's for beginner readers, those who want or desire to learn to read or teachers who want to teach reading. It's in large print and stress-free words. The Ball That Couldn't Bounce holds the attention of readers and listeners while urging smiles in the eyes of the pupil. This is Volume 1 of simple storybooks to motivate others to read by using plain basic words. Children can begin to read as early as one year old; I've witnessed and taught them. But no one, of any age, should be ashamed to start learning to read. Reading is power.
