A young adult mystery adventure. Orphan Alice is unaware of what lies waiting. Will she conquer it or not? Alice was paralyzed with fear, clutching her bed covers with white knuckled fingers. The creature's mauve skin glistened with slime and drops fell onto its spindly pointed claws. Alice opened and closed her mouth willing her voice to sound in the dark bedroom. The claws clicked together... as the monster's jaws opened. Click. Click. Clickety-Click. What future awaits Alice? Are her guardians who they seem? Will the monster reveal itself? These questions and more are answered as Alice realizes a secret kept for generations.
