"Crunchnoisy Origins" is a treat for connoisseurs of hand-drawn cartoon art and high-quality humor writing. For fans of Dujnic's Crunchnoisy Empire (crunchnoisy.com).

and its previous book, *Sock and Plato: The Comic Dialogues*, it's an essential trove of cartoons not available anywhere else. At the turn of the century, when webcomics were still nascent, a watercolored strip called "Area 337" launched online and ran for over three years. It had twenty-somethings, ancient philosophy, dot.com ennui (dotcommui?), science fiction, and more. It was the origin of The Crunchnoisy Empire. This comprehensive collection has all 177 full-color "Area 337" episodes, dozens of additional strips (including the ancestral newspaper strip from Johns Hopkins University, "jhu.edu"), and much more.
